AUDIT AND RISK ADVISORY PROFESSIONAL OFFERING EXCEPTIONAL EXPERIENCE WITH Protiviti, PwC LLP, KPMG LLP AND GRANT THORNTON LLP

CAREER PROFILE & OBJECTIVE:

- CPA (Actively pursuing), CIA and CISA with more than 8 years of work experience in Risk advisory services.
- Demonstrated expertise in performing risk based Internal Audits, Enterprise Risk Management (ERM), internal controls reviews, Process automation, IT audits, Compliance review, third-party risk assessments, COSO, Enterprise Risk Management (ERM), Regulatory compliance, SOX Compliance, SOC-1 & SOC-2 reports, IFRS, developing MIS framework, Internal Financial Control (IFC) framework, Standard Operating Procedures (SOPs)
- Enjoys new challenges and has received Client appreciation through leading initiatives and timely completion of assignments at in person locations in Israel & Africa and remote locations in Canada, USA, Singapore, Poland and India.
- Proven track record of working in heavily regulated environments, including financial services. Mentored Internal-Audit teams as Advisors and Solution providers from the current role of faultfinders.
- Excellent communication, analytical, interpersonal, leadership and presentation skills; expert at managing multiple projects simultaneously.
- Familiar with current industry standards, such as SOX, ISO, IIA's IPPF, COBIT, COSO – ERM, IFRS, US- GAAPs

WORK EXPERIENCE

Senior Information Technology Auditor / IT Auditor

December 2024 – Present

TD Bank Group (TD)

- Led the independent evaluation of information systems critical to Anti-Money Laundering (AML) and Anti-Terrorist Financing (ATF) compliance across the enterprise, ensuring adherence to regulatory requirements including FINTRAC, OSFI, PIPEDA, FATF, and the PCMLTFA, in alignment with COBIT for IT governance and COSO for risk management.
- Conducted testing of technology systems to assess the design and effectiveness of system controls within AML solutions, such as customer risk rating, onboarding, screening, and regulatory reporting, ensuring compliance with relevant standards.
- Assessed data integrity controls for AML/ATF processes, ensuring the completeness and accuracy of complex data processing routines, ETL, and data transfer solutions, in compliance with ISO/IEC 27001, PIPEDA and GDPR.
- Performed technical IT systems compliance assessments focusing on IT general controls (incident/change/access management, backup/retention, and disaster recovery), ensuring systems adhered to ISO/IEC 27001 and maintained the core principles of the CIA triad (Confidentiality, Integrity, Availability).
- Issued detailed reports on risk-rated findings to all key stakeholders and to ensure adequate test coverage and risk-based decision making were taken into account when planning test scopes and objectives
- Collaborating with key AML process and technology stakeholders to ensure adequate test coverage and risk-based decision making were taken into account when planning test scopes and objectives
- Worked closely with Technology and Business partners within Compliance to prepare them for automation of internal processes in a safe and secure manner.
- Providing mentorship by walking new team members through technology solutions across the enterprise and testing methodologies

Audit Consultant

January 2023 – November 2024

TjG (Toronto)

- Contributed projects focusing on the review of application systems, technology infrastructure, general IT controls, and business processes. Evaluated the design and effectiveness of controls to mitigate risks, supporting financial statements, SOC (Service Organization Controls), C-SOX (Canadian-SOX), and SOX (Sarbanes-Oxley Act) certification for clients based out of Toronto, Manitoba and Montreal.
- Led and conducted controls testing for CEO/CFO certification projects in publicly traded companies, assessing the design and operational effectiveness of internal controls over financial reporting. Concurrently managed all stages of audits.
- Participated and played a key role in conducting interviews, walkthroughs, and review the IT and business process controls; after the implementation of SAP/Hana for a client.
- Successfully performed walkthroughs for audit compliance at a client lacking internal controls. Identified weaknesses and effectively reported audit findings to senior management.
- Work closely with control and business owners, identifying control weaknesses, assist in formulating audit conclusions and preparing audit reports.
- Ensured audit results were gathered, root causes identified, and impacts assessed, reporting findings to management. Reviewed and edited audit reports, summarizing issues and presenting an overview of audit results to line management.

Senior Consultant – Technology Advisory

June 2021- November 2022

Protiviti

- Lead a team of 3-4 employees to review the invoice and payments processing for 4 group entities, which saved client costs in logistics, services, statutory dues amounting US\$1 Million based on sample review.
- SOX 404, Financial Audit Support, and Internal Controls Over Financial Reporting (ICFR) audits
 - Industry experience includes - Finance (Banks and Mortgage Providers), Technology, Mining & Metals.
 - Planned, designed, managed and executed tests of design and operational effectiveness over IT General Controls (ITGC) and industry specific business processes, application controls, ERP / infrastructure / database security, and data conversion reviews applying firm's risk-based methodology and frameworks such as COSO and COBIT.
 - Successfully lead and completed 2 simultaneous assignments within delivery deadlines and budgets on internal audit and internal financial control (IFC).
 - Performed control gap assessments and implemented remediation efforts; Presented overall findings and conclusions along with suggested industry-specific best practices to C-level executives and leaders
- Service Organization Control (SOC) Audits
 - For PCAOB clients Led several SOC 1 and SOC2 audits assessing various industry specific business processes for Software as a Service / Application Service Providers in accordance with CSAE 3416 / SSAE 16 / ISAE 3402 standards.
 - Leveraged strong understanding of SOC 1 and SOC 2 reports for proposals and business development

ACCOLADES:

- Awarded “Above & Beyond”- Business Excellence awards for consistent outstanding performance.
- Consistent performer through the tenure of Protiviti, with ratings of “2” and “3” on a 5 point rating scale.

Assistant Manager – Audit / AML, Governance and Controls

June 2019 – June 2021

Lendingkart Finance Limited (<https://lendingkartfinance.com/>)

- Prevented more than **\$100K penalties** by proactively identifying and rectifying compliance errors in regulatory matters.
- Enhanced adequacy and effectiveness of Lending Business Units with portfolio of around USD 11 Billion, and its Credit Risk Monitoring, Credit Administration and Loans operations.
- Provide strategic oversight and challenge over the first line of defense for the bank on all technology domains such as Cybersecurity, Identity & Access Management, Data Privacy, Third-party Risk management, Cloud Computing and Audit & Regulatory issue remediation.
- Act as a trusted advisor to the business and ensure that adequate IS risk assessments are performed for vendors via onboarding risk assessment, ongoing due diligence, SOC 2 report review, etc.
- Partnered with KPMG to review and improve the Internal Controls Framework (COSO), developing and implementing Risk Control Matrices (RCMs) in compliance with regulatory requirements. Ensured effective collaboration with EY auditors for financial reliability and remediation of identified weaknesses.
- contributed to the development of risk-based annual audit plan, ensuring the establishment of risk acceptances, mitigation plans, and business sign-offs, while enhancing risk governance for strategic decision-making by senior management.
- Assisted in audit planning and execution, meticulously reviewing working papers and finalizing audit reports and executive summaries. Effectively communicated findings to senior management and played a key role in developing enterprise risk management and organizational policies.
- Implementation of Risk Control Self-Assessment (RCSA/CSA) in audit assignments, established robust technology risk management frameworks, and diligently managed ISAE 3402 and SSAE 18 reports (SOC 1 and SOC 2, Types 1 and 2). Proactively identified and reported potential gaps to senior management, assisting in impact assessments and management response coordination.
- Ensured timely response and submission of requirements relating to corporate banking compliance (AML due diligence) queries. Work with the leadership team (AML Team Leads and QA) to provide feedback as defined by the engagement.
- Assesses organization-wide compliance with internal policies, data governance risks controls and procedures, laws and regulations, contractual terms and conditions, regulations and requirements, efficiency of operations, and accuracy of reporting.
- Worked directly with major partner firms like IDFC First Bank & Kotak Mahindra Bank.
